

HOUSE IS NOT IN IT
AS TO THE TARIFF.SENATE STANDS FIRMLY BY
ITS ARRANGEMENT.

No Signs of a Surrender—Advocates of the Wilson Measure Visit the White House Every Morning and Revive Their Courage But the End Is Not Very Near.

WASHINGTON, Aug. 4.—Before the tariff conference began their session yesterday there seemed to be an impression among the leaders that an agreement would be reached in the near future. The house conferees were especially encouraged with the progress made during the week, and said that a bill could be reported which would pass both houses and become a law. The conference appears to have reached very nearly the point at which either an early agreement will be reached or a decision to report a disagreement. The senate conferees apparently have arrived at the conclusion that there has been already a sufficient exchange of views upon general lines, and that the time has come when the direct issue must be raised. It is stated that a sugar schedule has been prepared which the senate will accept and which is to be presented to the house members as the extreme limit to which the senate will go. The schedule, it is said, still provides a differential duty on refined sugar and in other particulars maintains the protective features of the senate schedule.

Representative Bland has introduced a resolution instructing the committee on ways and means to report a bill placing all sugars on the free list and for raising \$100,000,000 revenue for an income tax. Mr. Bland says concerning the resolution:

"I have not consulted Mr. Wilson or any one else, but have acted on my own judgment in submitting the resolution. My purpose is to press it if there is an indication that the general tariff bill will fail. The proposition is somewhat different from that suggested in Mr. Wilson's speech (at the time the President's letter to him was read), as it proposes raising the necessary government revenue by an income tax. This feature is essential, however, if sugar is placed on the free list. I believe this separate tariff measure could quickly pass both branches of congress if the general bill failed."

Forty per cent ad valorem on raw sugar. Forty per cent on the value of sugar necessary to make a particular grade of refined sugar. One-fifth of 1 cent per pound on all refined sugars. One-tenth of 1 cent per pound on refined sugars from bounty giving countries. This is the ultimatum submitted by the trust to the house conferees on the tariff bill. It has not been accepted, but it may be.

The house members visit the white house daily before going to the sessions of the committee.

Another Anti-Option Bill.

WASHINGTON, Aug. 4.—Another anti-option bill was introduced in the senate yesterday by Senator Davis of Minnesota. He stated that he introduced it by request. Senator Harris suggested that it go to the finance committee. Senator George, however, said that inasmuch as it was bill to raise revenue it should originate in the house. Thereupon the second reading was postponed till to-morrow and the bill was laid on the table.

Guzman Represents Salvador.

WASHINGTON, Aug. 4.—Dr. Guzman, Nicaraguan minister to the United States, was presented to-day to the President as the accredited minister of Salvador. Salvador has no minister to this country, and because of his full and accurate knowledge of diplomatic affairs has requested Dr. Guzman to serve as its minister and to represent her in the Exeter case.

To Admit Arizona and New Mexico.

WASHINGTON, Aug. 4.—In the senate yesterday Senator Blackburn reported favorably from the committee on territories the house bill for the admission of New Mexico and Senator Faulkner, chairman of the same committee also reported the bill for the admission of Arizona. Both were placed on the calendar.

House Votes to Non-Concur.

WASHINGTON, Aug. 4.—The house voted to non-concur in the senate amendments to the public printing bill and it was sent to conference.

The senate amendments to the sundry civil appropriation bill were non-concurred in and the bill was sent to conference.

Foul Play Suspected.

DAKOTA CITY, Neb., Aug. 4.—The body of ex-County Treasurer Neff was found this morning in Crystal lake by fishermen. He had been missing since Wednesday. There are suspicions of foul play, as there are several bruises on his head and his clothes can not be found.

Dispensary Test Case.

CHARLESTON, S. C., Aug. 4.—Judge Aldrich, at Aiken, has signed an order restraining the local authorities of Aiken from interfering with the state dispenser in the discharge of his duty. The order was made returnable Aug. 18.

Murders Wife and Self.

CHICAGO, Aug. 4.—Discouraged by long ill health, Henry Dahme and his wife agreed to die together—so Dahme

decided in a letter "which was found this morning after he had murdered his wife and inflicted a fatal wound on himself.

Dr. Hers Sentenced.

PARIS, Aug. 4.—Dr. Cornelius Hers, the Panama lobbyist, was sentenced in Contumacious to-day to five years' imprisonment and to pay a fine of 3,000 francs.

RAILROAD STRIKE IS STILL ON.
Men on Each Road Are to Decide Their Own Case.

CHICAGO, Aug. 4.—The convention of the American Railway Union adjourned sine die last night, leaving the question of the strike in practically the same position it was in before the convention met. It was determined, however, to leave the question of returning to work to the strikers on each system to determine for themselves, without any intimation from the general officers of the union or the convention as to what course to pursue in the matter.

From the remarks made by some of the delegates it is probable that the strike will be declared off on one or two of the roads, but will be fought to a finish on others. The men claim that the Santa Fe particularly is whipped and will not be able to continue much longer without making terms with its old men. Besides the Pullman car question other grievances have come up since the strike began which may involve the other organizations of railroad men in a fight against that company. It is claimed that the road is not paying its men regularly on some divisions, the company being as much as three months in arrears of wages.

Resolutions were adopted favoring independent political action on the part of railroad men as the only means whereby they can secure justice from the corporations. A manifesto to that effect will be prepared and sent out to every local union in a few days. This manifesto will first be submitted to the attorneys to pass upon. It is reported to contain some pretty radical doctrines and the officers of the union want to be sure that they are not violating any laws in issuing such a proclamation.

A committee from Pullman headed by Chairman Pollans reported to the convention, that all the original strikers are still holding out to a man. They claim that the men who had gone to work in the shops are new men and a few of those who refused to go out when the strike was first declared.

The delegation from each of the roads affected by the strike made full and detailed reports of the conditions existing on those roads at present. These reports, it was claimed, were highly satisfactory to the convention.

TEN STRIKERS GO BACK.

Extent of the Desertion of the American Railway Union at Pullman.

PULLMAN, Ill., Aug. 4.—The Pullman company claimed to have 510 men at work in its shops yesterday, but the strikers claim that of this number but ten were ex-employees who are members of the American Railway Union. One hundred are mechanics who refused to go out when the strike was declared and have since been employed as watchmen in the shop yards. One hundred and fifty more are men living in Pullman, Roseland and Kensington who have never joined the ranks of the strikers. The remaining 250 men are mechanics sent down from Chicago and forty ex-factory hands from an idle plant at Harvey. The total increase in the number of men at work was 120 for the day, and of the ten American Railway Union men who gave up their cards and returned to work six had surrendered Thursday. General Manager Browne came down from the town office yesterday and distinctly outlined the future policy of the company. If it can be carried out no member of the American Railway Union can ever work in the shops of the Pullman Palace Car company. No member of the Pullman strike committee of thirty-three and no man who has become known as a speaker or agitator in the cause of the strike can obtain work from the company. This is the plan that the company will follow out.

Spring Valley Miners Firm.

SPRING VALLEY, Ill., Aug. 4.—It is reported here that the miners of Streator and Kangley have broken ranks and are returning to work at John McBride's scale, but this announcement does not seem to lessen the determination of the miners of Spring Valley and LaSalle. They say they will not return to work unless they are given last year's prices. The Spring Valley Coal company is making an effort to start up its mines, but with poor success.

POPULISTS STILL UNDECIDED

Dr. Nichols, Their Candidate for Governor, Opposed to Withdrawing.

LANSING, Mich., Aug. 4.—The conference of populist leaders lasted until after midnight last night, and while it was given out that nothing was considered save plans for a straight-out populist campaign it is affirmed that the matter of withdrawing Dr. Nichols, populist candidate for governor, so as to make room for Mayor Pingree and a coalition with the democrats for the purpose of dividing the two United States senators to be elected next winter, was all gone over. Dr. Nichols is not inclined to be withdrawn. The negotiations entered upon will be continued until some definite conclusions are reached, and the indications are that some sort of a deal will be made.

DID THE JAPS RUN
FROM CHINA'S ARMY?REPORT OF THEIR DEFEAT IS
DISCREDITED.

Washington Reports Do Not Bear Out the Rumor that the Island Troops Were Forced to Retreat—Deserters Were Shot By the Wholesale Today.

WASHINGTON, Aug. 4.—The rumored defeats of the Japanese in the battle with the Chinese is discredited here.

LONDON, Aug. 4.—A dispatch to the Times from Tien Tsin, dated Aug. 2, says: "The emperor places all the military authorities under Viceroy Li Hung Chang, who will protect the rights of the empire. He also orders the capture and destruction of Japanese ships wherever found. It is probable that a copy of the edict will be communicated to the representatives of foreign powers to-day."

A dispatch to the Chronicle from Tokio says: "It is reported that there has been a fresh collision between the Japanese and Chinese troops in Korea. It seems that after their recent defeat the Japanese assembled their whole available strength and took the offensive, achieving a decided victory over the Chinese. Details of the battle are expected to-day."

Deserters to Be Executed.

LONDON, Aug. 4.—A dispatch received here from Tien Tsin says that all deserters from the troops marching to Taku will be beheaded to-day.

Double pay has been promised to ship's officers as douceur.

BERLIN, Aug. 4.—A dispatch has been received here from Tien Tsin from a German official source saying that the German gunboat, Itlis, witnessed the sinking of the Kow Shung. It is added that the crew of the Itlis rescued 150 Chinese who were struggling in the water.

A dispatch received here confirms report that the Chinese were victorious over the Japanese in the recent battle at Asan, Korea.

ANOTHER DAY'S LOSSES BY FIRE.

Marion, Iowa, Surveys Ashes That Represent One Hundred Thousand Dollars

MARION, Iowa, Aug. 4.—The worst fire in the history of Marion early yesterday morning left one-half a block in the business portion in ashes at a loss of \$120,000, about one-fourth of it being covered by insurance. Fire started in the gas and electric light plant of A. L. Daniels. The cause is not known, some thinking it to be caused by an explosion and others to be of incendiary origin. When the department reached the fire it was thought it would be able to confine it to the building in which it started, but on account of lack of water the flames got beyond control and spread to a number of small neighboring frame buildings and the livery barn of Patten & Scott. It was seen that the whole block was doomed and men immediately set to work removing goods from the surrounding buildings. The fire then caught the grocery store of Schumack Bros. and the drug store of Lillis & Wilson. The fire quickly disposed of these buildings and started west. In the meantime the fire had caught the First national bank and the hardware store of J. W. Kendall. Notwithstanding there were several kegs of powder under the walk in front of J. W. Kendall's, the firemen fought bravely. There were several small explosions, but no one was injured. Total loss will be about \$120,000 with one-third insurance.

HEAVY LOSS AT LAKE VIEW.

Fire Sweeps the Town's Business Street. Nearly \$100,000 Damage.

DETROIT, Mich., Aug. 4.—The entire business portion of the Village of Lake View was destroyed by fire early yesterday morning. Thirty-five buildings, mostly frame, are in ashes and the loss is variously estimated at between \$60,000 and \$100,000. Both hotels and the postoffice were burned. Lake View is a town of 1,300 inhabitants, situated twenty miles northwest of Stanton on the Detroit, Lansing & Northern railroad. Its saw mill, planing mill, and factory interests escaped injury. The stores and hotels were all on one street and the flames swept both sides of it until they burned themselves out, despite an efficient village fire department. The amount of insurance is small.

Fire Threatens Bloomington, Ill.

BLOOMINGTON, Ill., Aug. 4.—A fire broke out here yesterday afternoon and for a time threatened the destruction of the heart of the city. Two boys playing in the rear of Boyce & Son's dry barn on North Madison street set fire to the barn, which was destroyed with its contents, including four head of valuable horses. The losses will foot up \$20,000 with very little insurance.

Before the fire broke out the pump at the water works had broken down and but little water could be obtained, and for a time the city seemed to be at the mercy of the flames. The wind blew a gale and the fire burned furiously.

Old Brewery Destroyed.

LEBANON, Ind., Aug. 4.—Eire destroyed the old Lebanon brewery, which of late years has been used as a storage house by James E. Pinnell, late last evening. Loss \$5,000. No insurance.

UPHAM SAYS FIRES
CAN'T BE CHOKED.FOREST PATROL WOULD BE OF
NO AVAIL.

Blazes Start So Quickly that a Watchman Could Do Very Little—The Order System Not in Vogue in the Marshfield Camps—Men Trade As They Like.

MILWAUKEE, August 4.—William H. Upham, the republican candidate for governor, arrived at the Pfister hotel this morning. Asked for his opinion on proposition to establish a state fire patrol in Northern Wisconsin for the purpose of guarding against and checking forest fires he said:

"I hardly think that such a scheme would be practicable, besides being too expensive. These fires break out in different localities and may be ten or more miles apart. A single patrol could not cover sufficient ground to do much good. A fire may be started by farmers almost anywhere, and the question would be where to station the fire fighters. I do not believe that the scheme would work well."

Interrogated regarding his company's store at Marshfield and the way in which democratic papers are dragging it into the campaign, Mr. Upham said:

"Our men are paid in cash. If they want to trade at our store they can do so, and if they prefer to patronize others nothing prevents them. If they trade on credit at our store they have our good will, and we have the security of knowing that they are earning wages. We issue no orders to the men."

"What is the general political outlook in the state?"

"Well, everyone I meet says that the state will go republican next fall."

War Looked for at Coal City.

COAL CITY, Ill., Aug. 4.—The state of affairs in this coal field began to assume a serious aspect yesterday. Some of the miners wish to go to work, but the majority are determined to hold out. A mass meeting of all miners is to be held at Coal City to-day, the result of which is looked forward to with much apprehension. Many fear a bloody siege between this and Monday evening. The operators and their armed guards are determined that work will be resumed Monday morning, by force if necessary.

More Men Out at Omaha.

OMAHA, Neb., Aug. 4.—A few more men went out at Swift's the ice men and the smokinghouse men. The packing houses are all killing except the Omaha. Edward Cudahy said yesterday morning that a number of his hog men had promised to go to work to-day at noon and should they not show up at that time they would not wait any longer for them, but proceed to fill their places. The men say their places can not be filled.

House Adjourns Until Monday.

WASHINGTON, Aug. 3.—In the house yesterday after some unimportant business the river and harbor bill was taken up, and after considerable discussion, without action on the bill, the house took a recess until 8 o'clock. The evening session was devoted to pension bills. On motion of Mr. Outwaite it was agreed that when the house adjourn it be to meet Monday next.

Convicts Engage in Battle.

CONNELLSVILLE, Pa., Aug. 4.—Jeffries' commonwealers, numbering 200, arrived here last evening and at once scattered through the town, demanding food. They attempted to capture a train, but were repulsed and many of them placed in jail. One of the commonwealers was badly injured. A large crowd surrounds the depot and great excitement prevails.

Take Action Against a Sheriff.

TOPEKA, Kan., Aug. 4.—The local A. R. U. lodge has retained two prominent attorneys to institute damage suits against Sheriff Burdge for imprisoning illegally men brought to Topeka, charged with violating the orders of the court during the recent strike.

Last of the Appropriations Passed.

WASHINGTON, Aug. 4.—The last of the appropriations, the deficiency, was passed by the senate last evening after it had been under discussion nearly the entire day. The report of the conferees on the river and harbor bill was submitted, but was not acted upon.

Back to Work in Iowa.

FOSTER, Iowa, Aug. 4.—The strike in the coal mines, which has been on here since the general strike was ordered, ended yesterday and 500 miners went back to work. The Foster Coal company refused to accede to the demands of the men.

Soldiers Called Home.

SPRINGFIELD, Ill., Aug. 4.—The governor yesterday ordered the company of the Second infantry, which has been on duty at West Hammond, relieved from duty. This was done at the suggestion of the sheriff.

Treasury Cash Balance.

WASHINGTON, Aug. 4.—The cash balance in the treasury yesterday at the close of business was \$110,269,815. The stated amount of the gold reserves is \$53,939,176.

TRADE READY TO LEAP.

Final Decision on the Tariff Means Improvement.

NEW YORK, Aug. 4.—R. G. Dun & Co.'s Weekly Review of Trade says:

An important change in the state of business is near at hand. Congress will act on the tariff question one way or the other in all probability within a week. So much business has been deferred during the last year and merchandise stocks have been so reduced that the mere approach of a decision, without certainty what it is to be, has this week encouraged large preparations for increased business. In spite of outgoing gold and sinking treasury reserves, small railroad earnings, some injury to crops, and increased trouble in the coke regions the tone and the outlook are more hopeful.

The injury to crops by hot winds and drouth, if as great as some report, will affect all interests, but at this season it is never easy to distinguish between local and general damages. Western receipts of wheat were 6,400,354 bushels against 4,002,636 last year, which does not encourage notions of a short yield, and exports were only 1,599,563 bushels from Atlantic ports against 3,174,461 last year. Corn exports were 218,137 bushels against 1,599,731 last year, and receipts 1,952,843 against 3,532,976, but it seems undeniable that the crop has sustained considerable injury. Cotton declined an eighth, with commercial estimates of a yield exceeding 8,500,000 bales. Wool has been advanced for many kinds one cent and the average about half a cent, after the decline of 1 1/2 cents from May 1.

Recovery in iron manufacture is hindered by greater trouble in the coke region, where many of the new colored hands have quit and gone back to the south and the strike goes on. Prices remain nearly unchanged though with numerous small contracts for structural work.

The demand crowds all works producing low priced shoes, while manufacturers of better grades are left dependent upon slender daily orders to keep their shops in operation.

Commercial liabilities thus far reported in failures during July amounted to \$9,016,778 of which \$1,530,220 were of manufacturing and \$1,231,470 of trading concerns, and the decrease for the month, though great in comparison with last year, is hardly as much as has been expected. The failures this week have been 219 in the United States, against 136 last year, and 44 in Canada, against 34 last year.

BASEBALL.

Games Played in the National League Yesterday.

Brooklyn took sixth place from Pittsburgh yesterday. At Louisville a dispute arose between the home club and Chicago as to the quality of the ball furnished, and on Capt. Anson's refusing to play the umpire awarded the game to Louisville 9 to 0. Games played were as follows:

At Brooklyn:

Brooklyn.....2 0 0 1 0 0 0-3
New York.....2 1 0 6 2 0 6-17

Second game:

Brooklyn.....1 3 0 0 2 0 1-7
New York.....0 1 0 4 0 0 1 0-6

At Philadelphia:

MONEY CASE IS ENDED.

Secretary Lamont Disapproves the Court Martial Findings.

WASHINGTON, Aug. 4.—Secretary Lamont yesterday finally disposed of the case of First Lieut. James Maney, who was tried by court martial as the result of killing Capt. Hedberg at Fort Sheridan. The lieutenant had been previously tried and acquitted by the civil courts on a charge of murder.

The charge proved before the court-martial was conduct unbecoming an officer in assaulting his superior officer. Of this charge he was found guilty and sentenced to be publicly reprimanded. After a thorough examination of the case, which has been before the department for many weeks, Secretary Lamont to-day indorsed upon the record of the court "disapproved by the department."

This finally ends the case, and Lieutenant Maney will not be reprimanded nor will he be again tried.

Tearing Down the Brazil Shops.

BRAZIL, Ind., Aug. 4.—General Manager Broughton of the Chicago & Eastern Illinois railroad arrived in the city yesterday and ordered the company's divisional shops torn down and loaded preparatory to moving them to Muncie, Ill. The company is dissatisfied with the action of the sheriff and citizens during the recent strike. If the shops are moved it is said the city will sue the company for \$20,000 on the provision that the shops should be maintained here. The lawyers are searching for the original agreement, but it seems to be lost.

River and Harbor Bill Agreed To.

WASHINGTON, Aug. 4.—The river and harbor appropriation bill was reported from the conferees to both houses yesterday and agreed to. As finally presented the bill carried \$11,483,180, an increase of \$1,949,491 from the house bill.

VIGILANT'S WINNING
IS A REGULAR THINGBEAT THE BRITANNIA TODAY
VERY EASILY.

Had a Margin of Six Minutes—Largest Number of Yachts Ever Seen Together in England Were Gathered and Fully 3,000 Americans Looked On.

COWES, Aug. 4.—In the first race over the Royal Yacht club course to-day, the Vigilant won by over six minutes. The largest crowd of yachts ever seen in England were present. Three thousand Americans yelled themselves hoarse.

ANOTHER CRISIS ON TARIFF

Decision to Report a Disagreement May Be Reached to-day.

WASHINGTON, Aug. 4.—The understanding among the tariff conferees when they adjourned yesterday afternoon was that the session to-day should bring about either an agreement on the sugar schedule or a decision to report a disagreement. From the start the sugar schedule has been the main point of difference. While the house by its vote made sugar free, its conferees have been persuaded to concede that a duty is necessary for revenue. The differential in favor of refined sugar has been the obnoxious feature of the house, but it will probably be accepted, as the conferees think that the advantage to the refiners is concealed in the ad valorem rate.

The other main points of difference, coal and iron ore, have also been the subject of discussion with but little success, as the points of compromise do not afford as much latitude as the sugar schedule. It is thought the senate schedule on coal will be adopted. It is agreed that iron ore becomes less a matter of contention on both sides and it is believed it will not be allowed to stand in the way of a final agreement.

SHUT OUT OF ATCHISON.

Several Miles of the Rock Island Track Washed Away.

ST. JOSEPH, Mo., Aug. 4.—The Rock Island road has stopped running trains into Atchison as a result of the river washing several miles of its track away. The through trains which formerly started from Atchison now start from here. The Burlington company has notified all the lines using its tracks between this city and Atchison to build branches connecting their lines, as the line is too much crowded with five roads running trains over it.

WERE NEAR TO DEATH.

Miraculous Escape of the Passengers on the 'Frisco Train.

ST. LOUIS, Aug. 4.—A most remarkable feature of Thursday's attempt at train robbery near Eureka, Mo., was the escape of the entire train and 108 persons upon it from absolute destruction. Desperadoes, who were undoubtedly accomplices of the fellow with whom Express Messenger Ferguson had a fight, forced open a car of dynamite that stood on the sidetrack below the station at Eureka and stole two big dynamite cartridges that were intended for heavy blasting in quarries and mines. Each cartridge was capable of tearing to pieces tons of solid rock. They were placed by the dastardly band on the rails, the intention being to destroy the train and plunder the richly laden express car and probably the passengers.

Twelve Men Poisoned.

LINCOLN, Neb., Aug. 4.—Twelve Burlington machinists were poisoned by drinking milk at their boarding place at Havelock, a suburb of Lincoln. Suspicion points to a servant girl who had been discharged for some delinquency and who made threats that she would get even. The girl lives at Plattsmouth and will be arrested.

Four Men Burn to Death.

BUYRUS, Ohio, Aug. 4.—A west-bound freight on the Pennsylvania broke in halves this morning, the two parts colliding. A car of coal oil and one of gasoline took fire, consumed half the train and destroyed about 500 feet of track. Four tramps were stealing a ride on the oil car and all were burned to death.

Big Sugar Factory Starts Up.

CHINO, Cal., Aug. 4.—The Chino sugar factory, the largest factory and refinery in the United States, started up. With this season's addition to the plant, made at a cost of \$250,000, the factory will use 1,000 tons of beets per day and its daily output of refined sugar will be 140 tons.

Situation in Washington.

ROSLYN, Wash., Aug. 4.—The Northern Pacific Coal company opened its offices yesterday morning for signatures for contracts to go to work, and about 100 signed, among them being a score of colored miners from Franklin and British Columbia. They were instructed to report for work Monday. What the outcome will be is not known.

Five Perish in a Storm.

TRINIDAD, Colo., Aug. 4.—Last night there was a cloudburst in the hills above Berwind, and the water came down the canon leading to that place in such a volume that a party of five persons who were caught were swept away and drowned.

The two evangelists, Welch and Devilery, who pitched their tent in Janesville some time ago, and who have systematically pitched into the citizens of that city ever since, says the Milton Junction News, are evidently not enjoying life. It seems that these evangelists are endowed with the spirit of prophecy and receive revelations for the guidance of themselves and their fellow men. If reports are true they also heal the sick and cast out expensive devils at prices ranging from fifteen to thirty-five dollars according to the circumstances in the case. They have discovered an immense number of the followers of his satanic majesty, both in and out of the church in Janesville, but have found righteous ones to save the city from burning. The Janesville Gazette is the leader of these cohorts of

IT WANTS DECENCY IN THE CAMPAIGN.

MADISON DEMOCRAT'S PLEA FOR CLEAN METHODS.

There Is No Excuse for the Attempt to Drag In A. P. Aism.—In Haugen's Defeat that Element Was Satisfactorily Disposed of.—Bishop Ireland's Advice.

This plea for decency in the state campaign is made by the Madison Democrat.

"The Bennett law and A. P. Aism should have no place in the state campaign this year and the republicans have named a ticket and adopted a platform which forbid their introduction except in a forced and indefensible manner. Had Mr. Haugen been nominated for governor the situation would be different. He was a pronounced and open advocate of the Bennett law, and his record on that issue is inscribed above his own signature. The Germania, a paper very influential in Lutheran circles, is understood to have been ready to make war on Mr. Haugen had there been any danger of his nomination; and the A. P. A. cry ought to be silenced by the overthrow of the candidate who was supposed to represent that issue in the convention. The latter is of course an issue which, if raised at all, will be raised by the democrats, even though they may fear it; but if it is that very fact will be a confession that the democratic cause is desperate and that it is simply a case of grasping at a straw—a case where all is to be gained and nothing lost. Such a confession does not have to make. It has very much to lose. The A. P. A. issue may be dangerous in politics. It can thrive only on antagonism. As Bishop Ireland says, the best way to treat it is to ignore it. That advice is as wholesome for the democratic party as for the church of which the bishop is such a wise, enlightened and conservative representative."

BEYOND EARTHLY WOES.

Mrs. Mary Atkinson.

After months of unrest and suffering patiently and meekly Mary, the wife of James Atkinson of Shopiere, passed away Monday, July 23, aged 46 years, seven weeks. She was borne in Spalding, Lincolnshire, England, May 29, 1848 and was married in January 1868. She was the mother of twelve children, six having preceded her to the better land. Three are buried across the sea and three at Afton. The surviving ones are John T., James W., Charles, Nellie and Jennie of this place and Mrs. T. Christman of Afton. Since 1886 Mrs. Atkinson has borne the ravages of that dreaded disease, consumption, and death was sweet relief. Funeral services at the home on Wednesday, July 25, at 1:30 p. m., Rev. A. C. Moses officiating. The remains were taken to Afton for interment, the pall bearers being S. K. Sweet, William T. Wheeler, A. Butler, George Culver. The family thank all kind friends who have assisted them in their last bereavement.

Mrs. Mary Wright.

Just after the clock struck 12, this morning, the spirit of Mrs. Mary Wright, wife of Datus Wright, took flight from its housing of clay and soared away to the realms above. A two years' residence in Janesville that was the final chapter of half a century's useful existence was thus cut short, and a husband and two children, Burnette Wright, of Waupun, and Miss Ada Wright, of this city, are left desolate. Mrs. Wright came to Janesville from Reeseville, Wisconsin, and in her brief residence here had made many friends. Bowel difficulty was the cause of her death, and the funeral will be held from the home, 202 Mineral Point avenue, at 11 o'clock Monday morning, and the remains will be shipped to Waupun on the 12:40 train.

Merle Kelly.

In Elma, Iowa, Friday, July 27, 1894, Merle, second son of Mr. and Mrs. E. D. Kelly and grandson of Mr. and Mrs. Henry Tarrant, of La Prairie, passed away after suffering intensely with inflammation of the bowels. He was six years of age.

The beautiful, white-robed angels, Came down from the river's side, And carried our little darling Merle Thro' its dark, death-shadowed tide, To the glorious realms of heaven, Where those darling little feet Will never, never wish to stray, From the beautiful golden street.

We thoughtlessly list for the coming Of those little restless feet, And our hearts ache for the music Of that voice so clear and sweet. Oh! our eyes with tears are filling, For we know that he has gone; But we try to pray so meekly: "Not my will, but Thine be done."

Miss Lottie Wilcox.

Miss Lottie Wilcox, oldest daughter of Rev. C. B. and Mrs. Wilcox, of St. Paul, has at last succumbed to the ravages of consumption. During the years she spent in this city while her father was pastor of Court Street church Miss Wilcox made many warm friends and her death will be sincerely mourned.

KNIGHTS TO CHANGE THEIR RULES

New Constitution For the Order Is Probable—Cost May Be Reduced.

At the Pythian convolve this month a number of changes will be made in the rules governing eligibility, and if any changes are made in the expenses of membership the cost will be reduced.

John H. Alexander, of Leesburg, Va., one of the commission, says that the commission has decided on a new constitution for the order modeled after the United States constitution, and that the most important new feature will be the supreme tribunal, a sort of supreme court of the order. This court will be empowered to finally adjust all rulings and decision of officers of the order in case of appeal.

A Shameless Fellow.

Anna—Just think what Arthur did yesterday! I was going down the stairs carrying a tray of dishes with both hands and he met me, and—

Clara—Well, he kissed you, of course, didn't he?

Anna—No, he didn't. Now, what do you think of him?

Comparative Osculation.

Maude—Mr. Buskin, the actor, must think a good deal of Miss Undastudi, of his company. When they met to-day he kissed her just as if she had been his wife.

Kate—Oh, much more warmly than that. I should say he kissed her just as if she wasn't his wife.—Boston Transcript.

COLD WAVE REACHES OVER MANY STATES.

DROP OF 21 DEGREES WAS RECORDED HERE.

Such a Fall Is Not Often Registered and In Winter It Would Be Remembered With a Shiver.—In Some Cities the Drop in Temperature Was Greater than Here.

The present cool wave, which at another time in the year would be called a "cold" wave, extends over the whole country from the Alleghanies to the Rockies and from Minnesota to the Gulf states. A drop of twenty degrees is designated a cold wave by the weather bureau, and the drop in Janesville was twenty one degrees. In the center of the state there was a drop of from twelve to sixteen degrees, which was about the average for Minnesota and the Dakotas. Maximum temperature ranged from 66 to 80 degrees to the western state yesterday. It is expected that the wind will get into the south again tomorrow, bringing warmer weather.

Forecast: Fair and warmer to-night and Sunday.

The temperature as recorded by S. C. Burnham & Co. during the last twenty-four hours was as follows: 7 a. m. 54 above. 1 p. m. 74 above. Max. 75 above. Min. 45 above. Wind, north.

SUPERSTITIOUS CLERKS.

Mail Sacks That Have Been in an Accident Are Sought After.

A group of railway postal clerks, just in from a run, stood in the transfer office at the Pennsylvania station the other morning, waiting for the cable car to start up in order to get home, says the Washington News.

"Tell you, felt a bit scary on this trip," observed one of the men as he knocked the ashes from his pipe and glanced at the clock.

"What was the matter? Inspector on the car?" asked one. "Flat wheel?" queried another.

"Worse than that. Forgot my red. Left it in the office. First time for six months."

"Where did you get yours?" asked the tall man with the sandy beard.

"I've had it a long time. Cub gave it to me, and he got it from the 'Fat Nancy' wreck," was the reply.

Just then the whirr of the cable became audible in the clear morning air, and the mail slingers made a run for the avenue.

"What's a red?" was asked of a clerk who was still lounging in the room.

For reply he opened his valise and drew out a dingy red mail sack. It was a plain canvas pouch, such as is used for mail matter of the lower classes, and save for the color, did not differ from any one of 100,000 or so that the government owns.

"Once in a while we have a little smash up, you know," he said, "and occasionally some of the boys get hurt, or worse. Our cars are pretty dangerous places in the event of an accident, and if there is any damage why, it's usually felt most in the mail or express car. It isn't often that they are serious, but now and then one of the boys gets smashed, and then there is naturally some blood around, and it gets on the mail sacks. In the old days the government very considerably used to put such sacks out of use, for you can't get the stain out. Then some genius conceived the notion of dyeing them red, but that only served to mark them.

"Every business has its superstitions," he continued, "and I guess we are no exception, for some of us have an idea that it is lucky to have a red in the car. I don't know why, I'm sure, unless it is the principle that the same sack will not be in two bad accidents. So when one comes our way we freeze on to it and try to keep it handy.

"Of course," he continued rather shame-facedly, "it seems like a queer kind of feeling to have a reminder of that sort around, but it's all in the way you look at it, and there are a lot of things just as foolish that other people do."

Curious Alleghany Springs.

There are several springs along the range of the Alleghany mountains that are great curiosities. From these springs a very considerable current of hot air passes constantly, sufficient at any time to blow a handkerchief out of a person's hand, unless it is held very tightly. These phenomena have never been explained, but it is generally believed that they indicate caves, and that the breeze comes from the internal air passages. The best known of these is called Blowing springs, and is at the foot of Lookout mountain, about six miles from Chattanooga. This is visited by a great many curiosity seekers and scientists. Others not so well known are found in North Carolina and Georgia.

He'd Be Quite Ready.

Bergen—A new sect has been organized in California that does not believe in wearing clothes.

Worden—There ought to be no trouble in getting converts.

Bergen—How would you do it? Worden—I'd go to a man just after he had received his wife's millinery bill.

WHAT a fine time this would be just now during the quiet season to have a dress suit made. We would have lots of time to design it. The tailor would have lots of time to make it and then when the time comes when you need it you could be perfectly happy and unconscious because your suit would be as good or better than the rest of people hereabouts.

We have just as good a line of these goods as at any time of the year and are willing to make a reduction in prices for this month and next to keep our men busy.

the evil one and has been found in the possession of a devil of the value of seven thousand dollars. The proclamation of this finding from the tent pulpit has given to The Gazette a devilish preponderance not altogether satisfactory to some of its contemporaries. It was determined that The Gazette should be suppressed and that transportation should be furnished to the regions where they do not rake the fire up over night. At this critical period, fortunately for that paper, a collection was taken, and an envelope marked "From the Gazette Printing Co.," contributed by some of the boys, was found to contain the total ransom, lacking only \$6,998.81; at which rate the Gazette will probably be out of danger early in the twentieth century and in the mean time will be out on bail. If this series of meetings is not as successful as the promoters would wish, some of the obstacles are indicated in the statement of a young man who was invited to relate his experience, that a similar confession, on a previous occasion, was written up at ten dollars and costs. At any time when the sulphurous reservoir is not running over in Janesville the denizens of that benighted town may reflect that

"The devil a walking has gone, To visit his snug little farm, the earth, And see how his stock comes on."

TOBACCO BUYERS RIDING AGAIN.

Farmers Begin to Have More Time and Sales May Follow.

A few tobacco buyers are again riding the growing sections now that the weather has moderated and farmers are getting over the rush of the grain harvest and probably some movement of the '93 crop will be resumed. The Edgerton Reporter suggests that business can hardly be expected to show any of the old time activity, however, while the eastern market remains in such unsatisfactory condition. Prices continue at low water mark. Sales since last report are: Martin Mason, 24cs '92 at 8c. W. F. Gardner 25cs '93 at 5½. 3&1c. Mrs. Spence, 34cs '93 at 5, 2&1c. J. G. Koehner, 10cs '93 at 6, 3&1c. THE CHARITY BALL NEXT WEEK.

Performance Will Probably Be Made a Society Event—Wednesday the Date.

There are probably few attractions that have met with and are really as deserving of great success as "The Charity Ball," which will be seen on Wednesday at the opera house, with Gustave Froham's great company to interpret it. It is safe to predict that a large and fashionable audience will attend, and several theatre parties have been arranged for the occasion.

FIFIELD BROS.

Their "All's Well" Signal.

They tell a pretty story of a young woman in Maine who left the parental home about a dozen years ago, setting up a new home of her own three or four miles distant as the crow flies, but in sight of the old homestead. Every evening since, so the story is told, mother and daughter have set a lamp in the kitchen window for the other to see and know that all is well with the one who placed it there.

Cooling a Room.

Those who have tried the experiment affirm that a large sponge hung in the room at night or in the day time, if it can be behind a convenient screen, and kept constantly wet, will greatly assist in keeping the room cool, or a cloth hung in the window over the blind, will cool the room as if a shower had fallen.

On the Safe Side.
Everybody knows that it is a good place to be, but everybody does not take measures to be there. An efficient preventative places us on the safe side of incipient disease, and there is no one more reliable than Hostetter's Stomach Bitters in cases where the kidneys are inactive, which is but the preliminary to various destructive maladies, which disregarded have a fatal termination. Bright's disease, diabetes, dropsy, oedema, are but the outgrowths of neglected inaction of the kidneys and bladder. They should be checked at the outset with the Bitters which will prevent their progress by arousing the renal organs to activity, and thus place those who resort to this saving medicine on the safe side. This preservative of safety also conquers constipation, liver complaint, malarial fever, nervousness and dyspepsia.

PARTS 1 to 12 of the Harpers Pictorial War History are now ready for issue. Leave coupons at this office.

HARPER'S HISTORY OF THE WAR

Harper's Pictorial History is universally recognized as the best history of the war yet published. This superb work has never been sold for less than \$16 to \$30. It has been sold only by subscription and but a very few men have been able to buy it.

The pages are the same size as Harper's Weekly and the work contains all the illustrations appearing in that great paper during the war. The work was edited by Richard Grant White and Henry M. Alden and is authentic, complete and reliable.

We have made arrangements whereby we can furnish Gazette subscribers with this splendid history of twenty-six parts at ten cents a part. These twenty-six parts will contain over one thousand war pictures and will make two handsome volumes when bound. Many official documents of priceless historic value are quoted in full in the copious foot notes, such for instance as Lincoln's inauguration speeches, articles of federation of the early states, constitution of the United States, ordinance of secession, and many important papers, speeches, etc. The war story is consecutive and very fascinating. The introductory chapters, leading up to the struggle, and the chapter on the reconstruction period, are by some of the first writers of the age.

It will astonish you how quick Johnson's Magic Oil will kill a pain. Sold at Smith's Pharmacy; 25 and 50 cent.

Johnson's Oriental soap is the most delicate facial soap for ladies in existence. Sold at Smith's Pharmacy.

A CANAL is to be dug through the Portage marsh large enough to drain the whole marsh and reclaim something like 3,000 acres of land. The canal will be twenty-seven feet wide at the top, seven and a half feet deep, and seventeen feet wide at the bottom. A steam dredge is expected to be put to work before long.

A WAUPUN woman tried the experiment of making currant jelly by the heat of the sun. She prepared the currants in the usual way, put them in an earthen dish, and covering them with a tin cover, placed the dish where it could be pierced by the sun's fiercest glare. In the due time the desired result was found to have been accomplished, and the jelly pronounced of the finest flavor imaginable.

It Is Quite Laughable.
 The frantic efforts of our would-be competitors to stop our great sale of Garland Steel Ranges gives us a "pane." We are selling more ranges than ever before. It is almost impossible to get them here fast enough. The Michigan Stove Co. telegraphed us that they would send us a carload Monday. All we ask is a comparison. We have the Garland Range and another inferior range standing side by side in our store. Come in and examine the two. Many people are removing other ranges and putting in the Garland. They are wise. It is actually the best range on earth, and we will put it against any other range in existence for money, marbles or chalk. Come in this evening. Take supper with us, listen to the music, and see a good steel range.

 The business the Park Hotel is enjoying is simply phenomenal. It is quite probable that a hotel never went to the top as fast as the Park. Under Mrs. Galbraith's management it has no superior in the city. The table is of high standard and it shows all the delicacies of the season. Tomorrow another fine Sunday dinner with spring chicken and all that will make an epicure happy. Arrangements have been made to take care of two hundred people.

EXECUTION SALE OF REAL ESTATE—STATE OF WISCONSIN, CIRCUIT COURT FOR ROCK COUNTY.
 First National Bank of Janesville, plaintiff vs. D. P. Smith and John Gateley, defendants. Notice is hereby given that by virtue of and in pursuance of an execution issued out of the circuit court for Rock county, Wisconsin, on the 19th day of December 1893, in the above entitled action and to me directed and delivered, I have levied upon and shall offer for sale and sell at public vendue or sale to the highest and best bidder on the 30th day of July, 1894, at ten o'clock in the forenoon of that day at the front door of the postoffice in the city of Janesville, Rock county, Wisconsin, all the right title and interest which the above named defendant D. P. Smith, had on the 11th day of November 1893, the day on which an attachment of said property was made in the said action in and to the following described real estate, to-wit: Lots numbered one to twenty-eight, both inclusive of D. P. Smith's Park View addition to Janesville, Rock County, Wisconsin; lots numbered ten to thirteen both inclusive of Bump and Smith's addition to Janesville, and also all the right title and interest which said defendant, D. P. Smith, had on the 19th day of December 1893, the day when the judgment in the above entitled action was entered and docketed in the office of the clerk of circuit court for Rock county, Wisconsin, in and to all of the following tracts of land, to-wit:
 A part of lot two in section twenty-six, town three, range twelve, beginning at the intersection of the south line of said lot two with the east line of the Madison road, thence north-west on the east line of said road twenty-three rods, thence east and parallel to the south line of said lot to Rock river, thence south on the west bank of said river to the south line of said lot, thence west on the south line of said lot to the place of beginning; also a part of lot three of said section, town and range, beginning at the intersection of the east and west quarter line of said section with the east line of the Madison road, thence south on the east line of said road 673-100 chains, then east and parallel to said quarter line 1038-100 chains of Rock river, thence northerly on the west bank of said river to said quarter section line, thence west on said quarter section line to the place of beginning (except the right of way of the C. & N. W. R. Co. through said parcels, which are not included in D. P. Happenings On Janesville Streets Since Morning Are Here Mirrored Accurately for Supper Table Review—Comings and Goings of People Well Known.

Farmers who have threshed report a good yield of grain. James Hopkins of Fulton says his winter wheat yielded thirty-five bushels per acre. Oats are reported from all parts of the county as first class in quality and quantity. Barley is fair. Corn, notwithstanding the season of severe drouth, is developing much better than anticipated. Much of the tobacco, especially that of late planting, is not in as good condition at this time as growers would like to see it, and many express fears that the crop will not develop. A good yield of potatoes is predicted.

For awhile olive oil and silent prayer were enough to raise any devil that Evangelists Welch and Devilly laid hands on. They tackled a Fifth ward imp the other afternoon, however, and main strength had to be used in addition to vast lung power. The neighbors thought a democratic caucus was in session.

We have never sold a vehicle for \$100 which we could have sold for \$75, and still afforded ourselves a fair profit. We have commenced the buggy business with the idea of making our customers interested in quality and price, and any guarantee we give we stand by. It is not an association guarantee but simply this any fault of workmanship or material we make good. Wisconsin Carriage Top Company.

The Victor factory, which has been running light for a few weeks, closed down for the purpose of putting in new machinery, repairing building, etc., and will be started about the 10th inst., with a full force of about sixty people. Will manufacture chairs, also Clark's, book case and holder.

FRED L. CLEMENS returned home this morning from a week's camping at Lake Koshkonong. Fred is enthusiastic over the romantic beauties of Rock county's big reservoir, and is frequently heard repeating: I have never seen the ocean, I have never sailed the sea. The banks of Johnson's Koshkonong are good enough for me.

We do not expect to sell to every one, neither do we wish a monopoly of the carriage trade. If we cannot fill your order for any vehicle you want we hope you will confine your trade to Janesville builders and keep your money at home. Wisconsin Carriage Top Company.

Now is the best time to go and see land in Clark county, for sale by the C. S. Graves Land Co. The present price will be the lowest for which it will ever be offered. Why rent a farm or pay a high price for it when you can buy of this company at only \$7.50 per acre, easy terms.

LADY bicycle riders are generally adopting the zouave bloomer costume while riding their wheels. While opinions are, like the costumes, somewhat divided, the sentiment gains ground rapidly that the costumes are eminently proper and sensible.

SEATS for "The Charity Ball" will be put on sale Monday at 9 o'clock at King & Skelly's. The securing of a Janesville date for the Frohman Company was in large part due to P. L. Myers' effort, and Mr. Myers is doing his best to insure a full house.

JOHN SMITH's full orchestra will furnish music at the open air concert at Crystal Springs Park tomorrow afternoon. Steamer Columbia and the Enterprise will run as usual in the afternoon. Round trip 15 cents.

THE Junior League of the First M. E. church, meets every Sunday at 3 o'clock p. m. in the Sunday school rooms, where I shall be pleased to meet all children who can attend. Mary Kimball, superintendent.

JANESVILLE Athletics beat the Fort Atkinsons by one run yesterday, the home nine having several professionalists to aid them. The score was 13 to 12 and the number of home runs batted was phenomenal.

THE Wisconsin Carriage Top Company is purchasing stock for 500 buggies for next season's trade, which they will commence building October 1. This will give additional labor to our local mechanics.

WHY not appoint yourself an investigating committee of one? Investigate thoroughly the make, style and finish of those pony wagons we are building to fit any sized pony. Janesville Carriage Works.

CROQUET finds favor in the Fifth ward this summer and the outbreaks on one lawn makes it probable that the militia will be called out before the summer is over.

PARACHUTE drops are unlawful, but that is a sort of a come-down in prices which has taken place in our establishment. One hundred dollar buggies for seventy-five dollars. Janesville Carriage Works.

DON'T forget the musical entertainment given at Thomas J. Moore's 13 North Main street Saturday night, by the famous colored comedian, Prof. Bob. Music and fine supper free.

DESCRIPTIONS cannot describe this sale. To tell of it is like attempting to describe the "muckness of the more." \$100 buggies for \$75. Janesville Carriage Works.

CHIEF OF POLICE SEULTZ of Sterling, Ill., was in the city last evening, looking after his own horse, buggy and harness, which was stolen from him on July 26. He has received no reliable information of its whereabouts.

A TWENTY dollar gold piece will be given away at the City Bakery to the private family purchasing the largest number of bread tickets before Christmas. DeForest.

POPULISTS TOO FEW
TO NAME A TICKET.

NO NOMINATIONS AT THE CONVENTION TODAY.

Six Delegates Were Sent to the First District Congressional Convention to Be Held in Racine Next Tuesday—Hamilton Utley Will Probably Be Nominated.

The populist mass convention at the court house this afternoon was a tame assemblage. The convention was called by the county committee to nominate a county ticket and six delegates to the congressional convention in Racine next Tuesday. Long before the convention was called to order those present concluded not to nominate a county ticket at this time.

John Hyland of Avon called the meeting to order, when it was found that there were only seven members present. Four of these were from the city—J. H. Haviland, James Cleland, John Galletly and Charles Sexton. Avon had two representatives—John Hyland and William Beals. Charles Sexton was elected secretary and the six delegates were elected by acclamation as follows:

John Hyland, William Beale, Charles Sexton, James Cleland, John Haviland, John Stockton.

John H. Potter, an enthusiastic populist of Lansing, Mich., being present, was invited to address the convention.

Last night Racine populists held caucuses and appointed delegates to the county and congressional conventions. They say that a full county ticket is to be placed in nomination, and that Hamilton Utley will be their candidate for congress. A larger vote is claimed than ever polled before by the party. The delegates say that they will not fuse, but will place a full ticket in the field. It is notified, however, that much of the democratic strength in this city was seen at the caucuses last night.

TEMPLARS SEAT NEW OFFICERS.

Social and Installation Ceremonies at the Meeting Last Evening.

Members of People's Lodge of Good Templars held an enjoyable session last evening at their hall in Court Street block. There was a large attendance and much interest was shown in the work. After the regular business had been disposed of the following officers were installed for the ensuing term:

Past Chief Templar—H. A. Palmer. Chief Templar—Marcus Kellogg. Vice Templar—Beatrice Prellar. Secretary—Neil Lewis. Assistant Secretary—May Winkley. Financial Secretary—Nellie Ward. Treasurer—Maud Bear. Chaplain—Mrs. Griswold. Superintendent of Juvenile Temple—Hattie Ward. Marshal—Frank Humphrey. Sentinel—W. J. Rothermel.

Performance at Mayflower Park.

The greatest attraction of the season at Mayflower Park tomorrow, August 5, Professor Morella and his troupe of performers will keep you laughing from 3 until 6 with his sleight of hand performance; instrumental music by Prof. Becker, singing and dancing and comedy by a troupe of colored artists. Free to all. Fare round trip on the steamer Mayflower, ladies ten cents, gents fifteen.

ADDITIONAL LOCAL.

Not a day passes but from one to a hundred people come to us with their feet all distorted and drawn out of shape by some foolish shoe merchant who imagined he could fit shoes. When we are through the person invariably thanks us for the relief we gave them. Can you wonder why we are rightfully named "The Painless? Foot Fitters"? Brown Bros. & Lincoln.

EVERYONE will be glad to hear that Mrs. Edith Davis will speak in the Congregational church Sunday evening. Both old and young will be interested in the speaker and in the discourse.

WE are farther advanced in the art of fitting shoes than ever before. In fact our class is the highest. The word "painless" cannot be used until one has reached our point in school. Brown Bros. & Lincoln.

DICK DUNN, the senior member of the firm of Dunn Bros. is out soliciting orders every morning. Leave word at the store for him, telephone 179 or call him as he passes your door. You will save time and bother and be well taken care of. Dunn Bros.

THERE is but one way to get the best furniture, that is to go to the house that has the largest stock and makes the lowest prices. Kimball is the man you want.

By selling those buggies for \$75 which we built to sell for \$100, we are not making much, but that is no difference. We cut our prices according to the times. Janesville Carriage Works.

FRANK DAVIDSON has been made day clerk at the Hotel Myers, replacing L. E. Brown who was released by Mine Host Miller.

ALL parties knowing themselves to be indebted to Mrs. Sadler are requested to call and settle without delay.

OUT of the first twenty-five games the Council Bluffs Maroons played on their tour they lost four.

MISS SARAH E. HOLT, of Worcester, Mass., is visiting at Mr. and Mrs. C. F. Lester's, 5 Wheeler street.

FAIR DIRECTORS MEET TO-DAY.

Scheme of Judging Decided Upon and Rules Made as to Awards.

The board of directors of the Rock county fair met at Secretary Holmstreet's office this afternoon. Judges were selected in all departments. This year the judging will be done by experts and strangers. Awards will not be published or prize tickets put on articles until Friday morning of the fair. The horses and cattle will all be brought before the grand stand at that time and the ribbons put on them will attract a very large crowd, as all of these animals will be on exhibition at that time. The dining hall is for rent and some society can make a nice little sum by furnishing meals. Everything is in a flourishing condition and it speaks well that only two shares of stock are for sale and those only because the owners have removed from the state. See the special figures in our merchants' windows. There are lots of them.

RAN A HOT RACE FOR A CLAM BAKE.

High Speed Was All That Saved Two Men's Soup.

If you ever hear of J. F. Sweeney's training for a foot race, don't bet against him. He can run for soup. That's what everyone at the St. Paul depot says. Mr. Sweeney and Clerk Brown of the Myers started for a clam bake at Delavan. They got as far as the St. Paul depot but the train started without them. They took after it on foot and after they had sprinted about 200 yards on top speed a kindhearted brakeman pulled the bell cord and the race came to an end. Those who held watches on Landford Sweeney say he ran the first one hundred yards in eight seconds and the last in nine and one-half with Mr. Brown barely a second slower.

MONEY IS NEEDED FOR THE Y. M. C. A.

Directors Make a Plea for Prompt Payment of Building Fund Subscriptions.

The board of directors of the Y. M. C. A. are compelled to ask the subscribers to the building fund, who have not yet paid up in full, to do so at once. The board relying upon the prompt payment of these subscriptions, have entered into contracts and made obligations which can not be met, unless the subscribers promptly pay their pledges.

Delay in making these payments will not only embarrass the board of directors, but will seriously hinder and delay the completion of the building. We therefore earnestly request all subscribers to pay at once at the Merchants' Mechanics' bank any balance remaining unpaid.

MILTON MEAT DEALER HAULED UP

Three Men Summoned for Selling Without License To Peddle.

When you sell meat from a wagon at Milton you put your foot in it, so to speak. Just how far, remains to be seen, but William Walrath, W. E. Vanlune and Harold Jackson have been summoned before Judge Phelps in the municipal court to explain why they could do that innocent-sounding thing without first investing in a peddler's license. Acting District Attorney Sloan consented that the case be adjourned until October 15, and Judge Phelps so ordered it.

SOCIETY MEETINGS ON SUNDAY.

BOWER City Lodge, Brotherhood of Locomotive Firemen.

DIVISION No. 185, Brotherhood of Locomotive Engineers, at 51 West Milwaukee street.

RUMORED RAILROAD DEAL.

The St. Paul Said To Have Bought an Iowa Line.

Negotiations are said to have been completed yesterday by which the little Des Moines, Northern & Western railway has become a part of the Chicago, Milwaukee & St. Paul system. It becomes a proprietary line by the purchase of a large block by the St. Paul company, and in time the latter will have a controlling interest.

Assignee Sale of Millinery.

F. S. Winslow, assignee for the Sadler & Houghton stock, 69 West Milwaukee street, has received an order from the court to sell the goods. The stock consists of a full line of millinery goods, which will be sold without regard to cost. The ladies of Janesville will find this a rare opportunity to secure bargains. The sale will continue every day and evening until the stock is sold. Call early and get your choice.

\$1,000 Dollars Ahead.

That is the amount of money Bort, Baily & Co. are ahead of July a year ago. This house does not wait for business to come, but goes out after it. The firms sale of Cheney Bros. silks at 59 cents a yard was the best thing of the season. Hundreds of yards were sold. Another special sale started there this morning. See large advertisement.

Reception.

This evening will be held one of the famous Majestic receptions. The Mandolin club will discourse sweet music and there will be an abundance of those three-minute biscuits and delicious coffee. Everybody invited. A. H. SHELTON & Co.

TWO ARE DIVORCED;
MORE WANT TO BEMARY A. WOOD OF THIS CITY
GETS A DECREE.

She Charged Her Husband With Desertion and Failure to Support—An Interesting Document From Evansville Gives the Details of a Family's Woe.

Mary A. Wood, of this city, was granted a divorce this afternoon in circuit court, from her husband, David Wood, on the ground of desertion and failure to support. The court officials are having considerable amusement in reading what purports to be a complaint for divorce, filed by Daniel P. Lovejoy, of Evansville, praying that his marriage to Nancy Lovejoy, in December, 1866, be annulled. He claims that he and his wife have lived "very inharmoniously, especially when together," and that she is now a resident of St. Paul. The complaint is quite humorous, in its details of the experiences the couple have had during the greater part of their married life. The complaint is so much out of form that it will hardly be received by the court, yet Mr. Lovejoy insisted on filing the document with the clerk.

MODRACK CASE GOES OVER.

Another Adjournment Taken This Morning Matter To Be Called Up Nov. 5.

The case of the state against Mrs. Wilhelmina Modrack, which has had a place on the municipal court calendar for a year or more, was called again this morning and again adjourned until November 5, none of the parties appearing with their attorneys. It is the general opinion that the case will never come to trial, it being one in which personal feeling has been the main incentive for prosecution. The action is for slander.

TWO HUNDRED people can be taken care of at the Park for dinner tomorrow.

DON'T EXPERIMENT.

Experience has proven a dear lesson to many a soul and especially so to the disease-stricken mortal who seeks in vain for relief. Readers of the Gazette should remember that there is a remedy sold by all druggists which contains naught but health-preserving properties. We refer to Dr. McChesney's Kidney and Liver Cure, a purely vegetable compound, guaranteed to cure all diseases of the stomach, liver and kidneys. Its effect is magic-like and the result permanent. Don't experiment with inferior remedies. Dr. McChesney's Kidney and Liver Cure is a sure cure for headache, dizziness, spots before the eyes, dyspepsia, bloating, coated stomach, constipation, jaundice, sour stomach, biliousness, enlarged liver, inflammation of the kidneys and all other liver and kidney complaints.

JOHN JACOB ASTOR
AND HIS NOVEL.

A SINGLE STORY BRINGS HIM
WIDE FAME

Which He Prizes More Than All the
Millions of Dollars He Has Inherited
—His Dreamings of Other Worlds—
A Scientific Study.

JOHN JACOB ASTOR is the richest man of his years in the United States, if not in the world. Everything that wealth can command is within his reach. Apparently, however, he is not content with the eminence which a great fortune which he did nothing to earn has given him. He realizes that there are other distinctions in life—higher and better prizes—which can only be obtained by honest effort in the field of honest competition. Consequently, instead of being a drone in the hive, he has turned his attention definitely to literary pursuits, toward which he has long had a special inclination, and proposes to achieve by his own labor a recognized place in the world. When a student at Harvard Mr. Astor devoted himself, in a large part, to scientific courses and to political economy, and his interest was shown by the fact that he

had the honor of appearing on the rank list every year. Since graduation he has given much time to scientific literature and study. For two years he has been engaged on a romance entitled "A Journey in Other Worlds; a Romance of the Future." The time is the year 2000 A. D., and the story describes a journey, by a novel means, to the planet Jupiter, where the conditions of the carboniferous age are found to exist, and also to Saturn, where the travelers are imagined to meet with the spirits of the departed. The romance contains many new and striking developments of the possibilities of science in the future, and the book is described as extremely interesting, both as a work of imagination and an example of the ingenious and original application of science. One special object of the book has been, as the preface shows, to increase popular interest in science. It develops the idea of a new force called aperi, the counterpart of gravitation, its application representing, of course, an advance on the flying-machine, which the most progressive minds believe to be near at hand.

This is Mr. Astor's first important venture in literature, although when he was at St. Paul's school at Concord he contributed several articles of merit to the school paper, *Horat Scholastic*, among them one entitled "A. D. 200," and another called "Dreamland and Shadowland."

The First Watches.
Watches first came into fashion in the year 1477, at Nuremberg, and on that account and because of their peculiar shape they were known as "Nuremberg eggs." They were not all egg-shaped, however, some being made in imitation of pears, gourds, acorns, birds' skulls, etc. Morgan, the English curiosity collector, has an old-time watch in the shape of a cow's horn, which discharges a tiny pistol at the end of each hour. The Earl of Stanhope has one shaped like an egg, cut in jacinth and set with diamonds. About the year 1600 watches began to assume the shape now generally worn; in the seventeenth century, however, it became the fashion to make them in the form of a cross.

"Fruitarians." "Fruitarians" are the latest novelty in the world of cranks. They are ascetic beings, who consider modern civilization far too luxurious, and therefore agree to live upon nothing but fruit and water, to live in bare huts without any comforts and to wear as little clothing as possible. The society is headed by a retired German lieutenant, who has gone to the Sandwich Islands to found a colony in some out-of-the-way spot, where his disciples can follow out their doctrines undisturbed.

Aluminum in the Army.
Experiments are being conducted at the armory in Springfield, Mass., in the use of aluminum for the bayonet scabbards for the new rifle. While the metal works well in bending and is about 50 per cent lighter than the steel scabbard, no satisfactory method has been devised for soldering the edges together.

A Woman's Strange Dream.
A strange dream so disturbed Mrs. Samuel Buffing of East Greenfield, Ohio, that she awoke with a start. She imagined that she had been drowning cats in a well and their pitious wails aroused her. Then she discovered that she had dashed her own infant out of the bed with such force that its skull was crushed.

A GREAT DRAWBACK.

Herr Dowe's Wonderful Coat Not Only
Bullet Proof But Airtight.

After a series of thorough tests in Germany and London it has been demonstrated that Herr Dowe's coat cannot be penetrated by bullets. The impenetrable quality of the stuff is seen in the fact that the German rifle which can send a bullet at a distance of 100 yards through a thick steel plate strikes harmlessly against the new coat of mail, which is described as "a wire netting incased in a cement-like mass." So, in spite of much misgiving and considerable ridicule of his invention, "the little tailor of Mannheim" is on his way to fame and fortune.

There is, however, says the Philadelphia Record, one very great drawback to the success of the invention, which puts its use by soldiers in the field practically out of the question. The coat, which weighs not less than six pounds, is as impervious to air as it is to bullets, and in a great battle more men would be stifled to death or rendered unfit for action by the wearing of such an apparatus over their breasts than could be saved by it. On going into action the first impulse of the soldier would be to strip off Dowe's coat and take the chance of a bullet through the breast to suffocation. Highly desirable as it is that the terrible casualties of the battlefield should be lessened as much as possible, the practical utility of this novel armor is extremely doubtful. This, too, seems to be the conclusion of the German military authorities.

On the other hand, it is conceded that Herr Dowe's invention will be of great value for the construction of light barracks, batteries, army tents, and boats, and for many other uses in defensive warfare. If it shall possess all the qualities that are claimed for it the material may largely supplant steel armor for men-of-war. But there are physical laws which make Herr Dowe's invention of no value to man or horse on the field of battle. It is not improbable, however, that improvements may remove or greatly lessen the difficulty of using the stuff as defensive armor for the individual soldier. At any rate, Herr Dowe has invented a material which is impenetrable by bullets, and this cannot be said of steel plates, nor of any other known material of defensive armor.

EATING ALLIGATOR.

A Young Specimen Is Said to Taste a
Good Deal Like Veal.

There is reason to believe that the flesh of a young boiled alligator is barely distinguishable from veal. It is probably cleaner and more tender than much of the meat of the animals that are usually consumed as food on the continent or in the east end of London. I have never desired to taste the flesh of alligators, cooked or uncooked, says a writer in Longman's Magazine. But in India I have seen the Sontals and other casteless natives greedily devour the flesh of an alligator without waiting to cook it.

The flesh was very pale in color and probably was much superior to the flesh of snakes and rats and such like creatures, which form the ordinary food of the predatory Sontal when hunting in his native woods. It does not fall to his lot very often to be able to circumvent and slay and eat a large alligator. He more frequently comes upon small alligators and they go to swell the contents of his cooking pots. If, however, he is so lucky as to meet a sahib who has shot a large alligator, say, about six feet long, he eagerly falls upon the unwonted delicacy without waiting to cook it, very much as we read in books of African adventure that the natives devour the carcasses of the large game animals that English sportsmen do not want for their own followers.

SURROUNDED BY MYSTERY!

A Great Mistake.

A recent discovery is that headache, dizziness, confusion of the mind, etc., are due to derangement of the nerve centers which supply the brain with nerve force. That indigestion, dyspepsia, neuralgia, and stomach, etc., arise from the derangement of the nerve centers supplying these organs with nerve fluid or force. This is likewise true of many diseases of the heart and lungs. The nerve system is like a telegraph system, as will be seen by the accompanying illustration.

The illustration shows a human figure with lines representing the nerve system. The lines connect the brain to the rest of the body, illustrating the concept of the nerve system as a telegraph system.

Franklin Miles, M. D., L. L. B., the highly celebrated specialist and student of nervous diseases, and author of many noted treatises on the latter subject, long since realized the truth of the first statement, and his Restorative Nervine is prepared on that principle. Its success in curing all diseases arising from derangement of the nervous system is wonderful, as the thousands of unsolicited testimonials in possession of the company manufacturing the remedy amply prove.

WASHING SMOKE.

A New Method of Dealing With the
Nuisance in Cities.

Washing air of its impurities by passing it through water screens or through chambers into which water is profusely sprayed, is a well known and much used process in heating and ventilating practice. Its merits were conclusively demonstrated years ago, and ever since advantage has been taken of them in large ventilating installations in which their expense was warranted, and where a smoky and unclean outside atmosphere suggested the desirability of submitting the air to some cleansing process before allowing it to pass into buildings.

It is not surprising, therefore, says Cassier's Magazine, that a somewhat analogous method should have suggested itself as of likely service in dealing with the now so much discussed smoke problem, and that it should have been tried with encouraging results. At any rate, a newspaper paragraph now going the rounds, tells of its application by an English factory owner, whose repeated conflicts with the local smoke ordinance prompted experiments in this direction, and apparently with perfect satisfaction. According to published description, somewhat indefinite, perhaps in a few respects, the apparatus used by him consists of a large cast-iron tank, in which is a slotted barrel, which is filled with perforated heaters, and the tank is partly filled with water.

The smoke is drawn into the barrel from the machinery by a powerful fan, and undergoes a scrubbing process. The barrel rotates very rapidly, churning up the smoke with the water. On the top of the barrel are several semicircular trays or sieves, which are perforated, and effect the purpose of further washing the smoke. The smoke which escapes from the heaters is caught again by these sieves and dashed down again by a fine spray of water from the beaters. The black sludge of solid matter is forced to the top of the chamber and thrown over into a chute, which conveys it to a wooden tank. The smoke which finally escapes from the machine is said to be comparatively inoffensive, and there is certainly good reason to believe that this should be so.

It is interesting to note, moreover, that the use of the apparatus does not end with the cleansing of the smoke. The black deposit gathered by it is taken off in barrels to be used in the manufacture of paint and printing ink, yielding an acceptable revenue instead of polluting the atmosphere, and the remaining liquid is said to have proved itself a most valuable disinfectant. Thus a twofold purpose is accomplished, either one of which would seem to be sufficient to commend the process to manufacturing communities in which smoke suppression is a live topic.

THE MICROSCOPE.

A careful microscopic examination and chemical analysis of the urine, is a valuable aid in determining the nature of many chronic diseases, particularly those of the nervous system, blood, liver, kidneys, and bladder. These aids make it possible to treat such diseases successfully at a distance, without personal examination of the patient. Thus Bright's Disease of the Kidneys, Inflammation of the Bladder, Gravel, and other Diseases of the Urinary Organs are successfully treated. Nervous Debility, Exhaustion, Dropsy, Liver Disease, and many other Chronic Maladies are cured without seeing the patient. Write for question blanks, treatise, and other information, describing case, and inclose 10 cents, in stamps, to pay postage.

THE SPRING OF ETERNAL YOUTH

Carlsbad may be truly termed the Spring of Eternal Youth. For centuries the famous Sprudel has been used as the best natural remedy for constipation, catarrh of the stomach, dyspepsia and liver and kidney complaints, diabetes, etc. Best taken when out-door exercise can be had. Be sure to buy the genuine imported article only, which must have the signature of "EISSNER & MENDELSON Co., Sole Agents, New York," on every package.

His Brain on Fire.

The skull of a man who has died from delirium tremens contains an alcoholic gas. A small opening in the skull, soon after death, permits this gas to escape, and it can be ignited, and burns with a bluish flame.

BRIEF BITS OF HUMOR.

Mostly a Native.

"Are you a native of this parish?" asked a Scotch sheriff of a witness who was summoned to testify in a case of illicit distilling.

"Maistly, yer honor," was the reply. "I mean were you born in the parish?"

"Na. I wasna born in this parish, but I'm maist a native for a' that."

"You came here when you were a child, I suppose you mean?" said the sheriff.

"Na, sir, I'm here about sax year noo."

"Then how do you come to be nearly a native of the parish?"

"Weel, ye see, when I cam here sax year sin' I jist weighed eight stane, an' I'm seventeen stane noo, sae ye see that about nine stane o' me belongs to this parish an' the ither eight comes from Camloekie."—Glasgow Herald.

GREATEST NERVE IN THE WORLD.

"Waddles," remarked Dismal Toddler, tearfully, "I have worked the district between Chicago and Peory for thirteen years, and I thought I'd seed all kinds o' nerve, but I hope to be caught working if I haven't just struck nerve for the first time—and in a woman, too."

"Wot's the matter?"

"I called at that house over there and asked for viddits; and when I had sprung my tale of woe the lady asked me if I wouldn't whistle for the dog so that she could set him on me."—Chicago Tribune.

Will It Come to This?

"George, dear," said the loving wife, "I do not see how our little one can go any longer without a new pair of pantaloon. The only ones he has have been patched until he can wear them no longer."

With a deep sigh her husband laid down his paper. "I don't know what I can do, Madeline," he said, "I can't afford to buy him new ones just at present."

"Then, my darling," replied his better half, with a despairing gesture, "the worst has come. I shall have to have my bicycle trousers made over for him."—Kansas City Journal.

All Proof Lacking.

"I hope, sor, you will assist a poor man whose house and everything that was in it, including me family, sor, was burned up two months ago last Thursday, sor."

The merchant to whom this appeal was addressed, while very philanthropic, is also very cautious, so he asked: "Have you any papers or certificate to show that you lost anything by fire?"

"I did have a certificate, sor, signed before a notary public, to that effect, but it was burned up, sor, in the house with me family and the rest of me effects."—London Tid-Bits.

After the Graduation.

"Why do they call it 'commencement,' maw?" asked Susie Simperly, carelessly tossing the essay she had read half an hour before upon the center table and heading for the piano stool.

"Because," came the reply in crushing tones, "because it designates the period when you're goin' to commence to hustle around and do something. As soon as you can conveniently take off that white dress and eighteen-button gloves you will find a pile of dinner dishes in the kitchen that need your attention."—Buffalo Courier.

He Took the Hint.

"Did you see my beautiful present from papa?" she asked of young Mr. Nevergo, who had come to call.

"No. What is it?"

"A new clock. It's so ingenious. It has a music box attachment."

"Very clever."

"Yes. It plays 'Home, Sweet Home,' every night at 10 o'clock."

And Mr. Nevergo went that evening at just 59 minutes past 9.—Answers.

No Sympathy.

Police Justice—Look here, your face is familiar. Haven't you been in this court before?

Prisoner—Please, your honor, you met me out at Dugan's the night they had the dog-fight there. See?

"Oh, yes. You handled the dog that I lost \$50 on. Six months. Next!"—Indianapolis Journal.

Explained.

"What made Mr. Borely resign from that target company after he'd spent all the winter and spring in organizing it?"

"Oh, he didn't like the office the boys offered him."

"What was it—lieutenant?"

"No, target."—Harper's Bazar.

Had Thought It Out.

First Tramp—I wonder why it is that poor folks is always more willing to help us than rich folks?

Second Tramp—People that don't mind givin' things away is the ones that stays poor.—N. Y. Weekly.

Two of a Kind.

Mrs. Yergler—What is the matter? You seem to be very much annoyed.

Mrs. Peterby—I have good reason to be annoyed. That addle-pated goose, Mrs. Jones, treats me as if I were not her equal.—Alex Sweet, in Texas Siftings.

LITTLE ABSURDITIES.

"Is it possible the colonel is running for office?" "No; he hasn't run since the war!"

"Are you not ashamed not to do any work all the year round?" "Oh, I would rather be ashamed than work."

"Why is it that Tuner's pupils all seem to take hold of the music better at this concert?" "It may be because it is all Handel's."

George—Amelia, dear, do you believe love is blind? Amelia—Yes, George, darling. George—Then, dear, I do not see any need of keeping the gas burning.

"Ob coh'se," said Uncle Eben, "time is money. But it do beat all how much easier 'tis ter gib a frien' two houahs' talk 'bout economy dan 'tis ter len' 'm fifty cents."

"Is it true that your bride is very hard of hearing?" "It is. Why, when I proposed to her I had to shout out so loud that all the neighbors ran in and congratulated me."

Mamma—Robbie, don't eat that candy, or you'll have the toothache. Robbie—I don't care. I'll make nurse tell me an awful ghost story, and I won't know my tooth aches."

Officer Phoneyhann—I hear you was fired for sleepin' on jooty. Is that so? Ex-Officer McBroyde—No, Mike, no; niver say that. It wasn't fur the sleepin'; 'twas fur the wakin' up too late.

Little Johnny—Sammy Sims called me a liar to-day. Mother—I hope you were able to convince him that you were a lover of truth. Little Johnny Guess I did. I didn't let up till he hollered "Enough."

"Herbert," she said, "tell me one thing, and tell me truthfully. Were you ever intoxicated?" "Well, replied the young man, "I was air-tight once." "What do you mean?" "I had a tooth pulled and took laughing gas."

"Daubs is mad as hops about his picture that was on exhibition."

"Wasn't it noticed?" "Yes, took a prize." "What's he mad about, then?"

"Well, it was a picture of cows, and it was awarded the prize for the best picture of sheep."

HOW THEY COMPOSED.

Haley liked smoking and always composed best with a long pipe in his mouth, the bowl resting on the floor.

Sullivan does not write more than one or two songs a year. He receives hundreds of poems for music, but generally does not read them.

Donizetti was of a melancholy temperament and subject to fits of mental depression without visible cause. During the last three years his melancholia became so pronounced that he was incapable of giving attention to his work.

Cherubini so closely identified his sympathies with his work than when writing a pathetic passage he would cry like a child. He was often found in tears over his score, and some of his manuscripts are thus so blotted as to be almost illegible.

Schubert was so prolific of songs that he never remembered, a few days later, what he had written. A friend placed one of Schubert's own songs before its composer two weeks after it had been produced. The latter had forgotten it and asked whose it was.

Wagner had a clearly molded, classical face, with thin, cynical lips, which seemed to wear a perpetual sneer. He was exceedingly vain, greatly disliked to hear words of praise given to any other composer, and rarely spoke even in faint commendation of the greatest of his predecessors.

Liszt was tall, angular and thin. His hands were very large and his fingers so long as to enable him to cover an octave and a half. His side face bore a striking resemblance to that of Calhoun. His marvelous dexterity at the piano was the result of native talent, aided by almost incredible labor. As a child he practiced ten hours a day, and increased this time as he approached manhood.

DAME NATURE AND MAN.

Next to Niagara, the largest water power plant in this country is in Portland, Ore.

There is a tree in Nevada so luminous from exuding phosphorescent matters that one can read by its light.

The physical lives of most freaks, like their professional careers, are short. The fat people usually die of apoplexy.

At the end of each hair of a cat's whiskers is a bulb of nervous substance which converts the hair into extremely delicate feelers.

A novelty in icebergs was sighted lately south of the Banks by the steamship Brooklyn City. It was a three-peaked mountain. The middle peak was 180 feet high. The berg, which was about 2,000 feet long, appeared to be solid, and was apparently fast aground.

The low price of silver in Paris has stimulated the inventive genius of a manufacturer, who has consequently made a new metal by means of an alloy of copper and silver, using the successful proportions of the two. He has really obtained an entirely new metal, one of a most extraordinary degree of strength, and most valuable for resisting sudden or long sustained strains.

A device for stopping up shot holes in war vessels, invented by a marine engineer named Douglas, and accepted by the British government, has been tested by the United States cruiser Chicago. It resembles a parachute with a rubber cover supported by steel ribs. It is pushed through the hole made by the shot, when it expands and clings close to the outside of the vessel, preventing an inrush of water.

ODDITIES OF TAXATION.

In the time of Queen Anne soap was taxed £28 per ton.

In parts of Peru taxes are paid in cocoa leaves and Peruvian bark.

Male servants are taxed in Great Britain and several other countries.

The French people pay over \$10,000,000 a year taxes on their windows.

Until about forty years ago the Persian government levied a tax on cats.

In the early days of the Virginia and Carolina colonies taxes were paid in tobacco.

During the fourteenth century in Italy a tax was levied on every one who wore shoes.

The tobacco tax in Spain brings as much revenue as the tax on land; each is about \$30,000,000.

In Ceylon the government dues are often settled by the payment of cinnamon, cloves and allspice.

In Siam, until a few years ago, a heavy tax was imposed on umbrellas. Every umbrella-carrier had to pay.

Peter the Great levied a heavy tax on beards, not for the purpose of revenue, but to compel his people to shave.

In most parts of Syria, Palestine and Arabia fig trees and date palms are counted, and a tax is levied on each tree.

Instances were known in the early history of several of the Western states of taxes being paid in coon-skins and beaver pelts.

In several districts of Kurdistan the wealth of the individual property-owner is estimated in goats, and he is taxed so much per goat.

The Chinese government levies a regular tax on beggars, and gives them, in return, the privilege of begging in a certain district.

Queen Anne invented a tax on advertisements. Each paid three shillings and six pence to the government. It was abolished in 1853.

There is a tax on gravestones in England, and the man who wishes to inclose a grave by means of a fence or wall is compelled to pay dearly for the privilege.

A tax on canes was once levied in Marseilles, France. The excuse for it was found in the statement that the canes wore out the pavement. The tax was applied to cleaning the streets.

Too Much Mouth.

A New York gentleman who has a remarkably large mouth, almost as big as that of a river, but whose name we suppress out of regard for our own personal safety, was visited on his own birthday by a number of his little nephews and nieces.

"Which of you all did your uncle kiss first?" asked the mother on the return of the children.

"We all kissed him at the same time. Uncle has a nice big mouth, you know, mamma."
